

JOINT VENTURE / TECHNOLOGY TRANSFER NEWSLETTER
TTT Inc Holding Group (USA)

Issue 47, October 8 2007, International Distribution: 29,200

You are receiving this Newsletter by request or because your organization is active in the fields of energy, environment, construction and/or food processing infrastructure development internationally.

We sincerely hope that you will continue to subscribe to this free publication by TTTHG Inc. BUT IF YOU DO NOT WISH TO RECEIVE the Newsletter, please REPLY with REMOVE in the subject line.

TTT INC HOLDING GROUP (USA) WELCOMES COMPANIES FROM ALL OVER THE GLOBE INTO ITS NETWORK OF INDUSTRIAL SECTOR PARTNERS.

In case you missed it, the Summer 2007 newsletter can be found [here](#).

CONTENTS:

- 1) New partners join TTT Aerospace Division
- 2) TTT-Africa seeks partner companies
- 3) Investment Conference in 2008

1) TTT-AEROSPACE EXPANDS

In addition to our nearly 20 years of joint ventures with aerospace companies in the U.S. and Europe, we enthusiastically welcome these two new partners:

A. **OPTICOELECTRON GROUP:**

From its [Panagyurishte Industrial Park](#) base near Sofia/Bulgaria, [Opticoelectron Group](#) has a 35-year history of providing military and commercial customers with sophisticated Electro Optics systems, from engineering design through manufacturing/fabrication and quality control, such as:

- precision optics
- optomechanical (sub)systems
- optoelectronics (sub)systems
- laser guided systems (military and medical)
- complex coatings and filters

With over 95% of its products exported to the European Union, and a sophisticated plane/spherical/cylindrical surface processing equipment park, its ISO 9001:2000 registered facilities offers sophisticated photonics partnership capabilities for US/NATO firms.

For more information please visit <http://www.ttthg.com/aerospace/index.html> or email: aavila@ttthg.com

B. CRYPTO:

In coordination with strategic partners such as Konsberg Norway, Crypto integrates high technology Information Protection, Combat Management, and Vessel Traffic MIS systems capabilities (hardware and software) for Space, Air, Land, Water and Underwater delivery vehicles, with special focus on Central/SE Europe, Asia Pacific and South American governmental and major industrial customer groups.

For more information please visit <http://www.ttthg.com/aerospace/index.html> or email: aavila@ttthg.com

2) TTT-AFRICA SEARCHING FOR COMPANIES

WILMA, a TTT-Africa ISP and nonprofit institution combating poverty in Africa, is looking for large companies (preferably multinationals) to be the NODAL FIRMS of WILMA business ecosystems in Africa, a for-profit development strategy described on its website (www.wilma.us). Nodal firms should be focused on developing African consumer markets and will invest through CECs in clusters of small/medium enterprises called Joint Venture Commercial Estates (an African adaptation of Industrial Parks) doing business in the FOLLOWING SECTORS:

- Food processing and energy co-generation (from agricultural / other biomass waste)
- Manufacturing/assembly of consumer goods for local markets (foods, housewares, etc.)
- Energy and utilities (innovation / technology in power, water, connectivity)
- Construction (optimizing technology and environmental values using local materials and skills)
- Agribusiness (technology transfer, logistics, and international marketing)
- Outsourcing of parts production
- Recycling waste and restoring clean, healthy environments

If you are working with a company that may be interested in this program, or if you can connect WILMA with such a company, please write directly to Paul Armington (President of WILMA) at parmington@wilma.us or contact the WILMA office at 202-237-2146

3) 2008 INTERNATIONAL PROJECT INVESTMENT CONFERENCE

TTT Management is preparing for the 2008 project investor conference in Tucson, Ariz. (e.g. Friday March 21- Monday March 24, 2008). This long weekend will be filled with invaluable face-to-face collaboration, business plan presentations, ISP project updates, and a tour of local TTT facilities. We wish for any person or company interested in participating to contact President Anthony Avila. More details will be announced on the Website and through the Newsletter in coming months.

For info on Conference 2007: <http://www.ttthg.com/conference/index.html>

Also: If you want to bring new partners together in your region for a 3-5 day TTT Trade Mission, or to recommend other trade missions/conferences for TTT to attend, email: aavila@ttthg.com

TTT is continuing with the same purpose and mission that it has had for the past 25 years. TTT's management team will strictly adhere to the TTT Project Investment Guidelines/Criteria process in deciding which projects to further participate in. All TTT ISP's are therefore strongly encouraged to keep developing and refining their project Business Plans in these coming months, so TTT leadership can decide if/how to assist further.
